

The purpose of this weekly report is to provide you with a snapshot of your student's progress in their online or independent study class. It does NOT take into account any assignments that were recently turned in that have not yet been graded. Your student can show you their up-to-date progress from their dashboard in APEX.

Completion Dates. This course must be completed by the deadline. If a student cannot finish it by then and needs more time to complete it, a Course Extension Form needs to be filled out and signed by both the student and a parent. The form is available on our website or in our office.

Each extension is two-weeks long and costs \$100.

Reports

Apex Weekly Report. You should be receiving weekly updates from Apex Learning. It gives information regarding the progress your student made during the week.

NWLS Report. Our report gives an overview of the progress in the course and should help monitor the pacing and performance of the course.

Apex Online Report. To track up-to-date course progress, have your student log into their account and then go to the "Reports" tab. Click on "Student Progress" and then the "View" link. A window will appear that lists all assignments and scores.

Last day your student has access to APEX and the date all work is required to be received by NWLS

Our goal is to keep you and your student informed so that learning and expectations are clear. If you are interested in other NWLS offerings, give us a call or visit our website at NorthwestLibertySchool.org.
